

TrueNAS® R-Series

High Performance, Unified Storage Appliances

TrueNAS is the world's most popular Open Source storage operating system. Built on OpenZFS, TrueNAS provides unified File, Block and Object services with all the essential data management features including data protection, snapshots, replication, scrubbing, data reduction, and security. TrueNAS is suitable for file serving, media streaming, backup, archive, virtualization, and databases.

Developed and supported by iXsystems, the TrueNAS R-Series is available in three editions: CORE, Enterprise, and SCALE. All TrueNAS systems are fully compatible and allow secure data replication and migration between each other. The TrueNAS Enterprise version is available with Bronze or Silver Enterprise support.

With the **TrueNAS R-Series**, iXsystems integrates TrueNAS with value-oriented, single-controller hardware that has configurable performance. The Open Source economics of TrueNAS provides the best value storage in the industry and the R-Series has excellent price-performance with systems ranging from 10 GbE to 100 GbE with up to 16 cores and 192 GB of RAM.

Open Source Economics	Support the TrueNAS Project
<p>The TrueNAS R-Series delivers the economic advantages of Open Source software on an industry standard x86 platform. The R-Series supports CORE, Enterprise, or SCALE and can be repurposed with any other software. Low risk and great value!</p>	<p>The TrueNAS Community is run by a team of dedicated engineers employed by iXsystems. Purchasing a TrueNAS R-Series system contributes to the ongoing operation, development, and stability of the TrueNAS Project.</p>
ZFS System Optimized for TrueNAS	Built for Professionals
<p>While TrueNAS works with a wide range of x86 based hardware, there are significant performance and operational benefits from selecting a balanced platform with best-in-class components like cache devices. The R-Series is designed with many price-performance options ranging from 10 GbE to 100 GbE.</p>	<p>Building a NAS from the latest components requires research and testing. iXsystems builds each system and can even set up your storage pools. Your TrueNAS R-Series also includes a 3-Year warranty for software and hardware as well as a license for graphical enclosure management.</p>
Rich TrueNAS Feature Set and more...	Easy to use Management Interfaces
<p>NFS, SMB, AFP (Apple), S3, and iSCSI services</p> <ul style="list-style-type: none"> • All flash, all HDD, fusion, and hybrid pools • Integrated Jails, VMs, Plugins • M.2 NVMe flash boot drive and flash accelerators • Hot swap drives with tool-less, front-loading bays • Redundant, efficient power supplies and fans 	<p>TrueNAS includes many management tools and interfaces including a modern Web UI, REST APIs, and a powerful CLI. Active Directory, LDAP, and two-factor authentication are also available. TrueCommand provides single-pane-of-glass management for many TrueNAS systems and includes advanced reporting, alerts, analytics, auditing, and RBAC.</p>

Each TrueNAS R-Series system is custom configured by selecting a chassis, controller, network ports, cache devices, and storage media.

Systems	TrueNAS R10	TrueNAS R20	TrueNAS R40	TrueNAS R50
Rack Space	1 U	2 U	2 U	4 U
Depth, Weight (net with drives)	27", 686mm, 20kg	26", 660mm, 31kg	26", 660mm, 30kg	39", 83kg
Controllers	Single	Single	Single	Single
Drive Bays	16 × 2.5" 7 mm	12 × 3.5", 2 × 2.5"	48 × 2.5", 7 mm	48 × 3.5", 4 × 2.5" (NVMe)
CPU per Controller	6 - 10 Cores	6 - 16 Cores	6 - 16 Cores	6 - 16 Cores
DRAM Per Controller	32 GB - 96 GB	32 GB - 192 GB	64 GB - 192 GB	64 GB - 192 GB
Max Ethernet Speed	2 × 100 GbE	2 × 100 GbE	2 × 100 GbE	2 × 100 GbE
Fibre Channel (option)	2 × 32 Gb	2 × 32 Gb	2 × 32 Gb	2 × 32 Gb
Power (Max Typ. with 10 Cores)	350W, 250W	800W, 400W	800W, 600W	1300W, 800W
Expansion Shelves Supported	0	2 x ES60	2 x ES24F	2 x ES102
Storage	All-Flash	Hybrid	All-Flash	Hybrid
Max Capacity	120 TB	1.5 PB	720 TB	5 PB
Max Effective Capacity*	400 TB	4 PB	2 PB	10 PB
Max Read & Write Cache		2 × 1.6 TB SATA SSD		4 × 3.2 TB NVMe SSD
Performance	Up to 600K IOPS and 10 GB/s. Varies based on configuration. Please contact us.			
Compliance	CE, FCC Class A, RoHS 6/6 Compliant			
Electrical	100 - 240Vac, 50-60Hz, IEC-320-C14 & NEMA 5-15P			
Environmentals	Operating temperature: 5oC -35oC, Relative Humidity: 5% - 95% non-condensing at <1,000m			
Pricing	Starting at \$3,000. Grow HDD capacity at less than \$50/TB, All-Flash at less than \$200/TB.			

* Maximum effective capacity assumes typical data reduction through compression and deduplication.
